Case Planning for Families Involved With Child Welfare Agencies

Since the passage of the Adoption Assistance and Child Welfare Act (P.L. 96-272) in 1980, Federal law requires the development of a written case plan for any child receiving foster care maintenance payments under title IV-E (42 U.S.C. 671(16)). As described in Federal regulation, the case plan for each child must:

- Be a written document that is developed jointly with the parents or guardian of the child in foster care
- Be developed within a reasonable period of time but in no event later than 60 days from the child’s removal from the home
- Include a discussion of how the case plan is designed to achieve a safe placement for the child in the least restrictive, most familylike setting available and in close proximity to the home of the parents when the case plan goal is reunification
- Include a discussion of how the placement is consistent with the best interests and special needs of the child
- Include a description of the services offered and provided to prevent removal of the child from the home and to reunify the family
- Document the steps to finalize a placement when the case plan goal is or becomes adoption or placement in another permanent home

¹ 45 C.F.R 1356.21
When Case Plans Are Required

A review of statutes, administrative codes, and agency policies reveals that all States, the District of Columbia, Guam, Puerto Rico, and the U.S. Virgin Islands require a case plan when a child welfare agency places a child in out-of-home care, including foster care, placement with a relative, group homes, and residential placement. Approximately 26 States and the District of Columbia, Guam, and the Virgin Islands also require a case plan when a child and his or her family are receiving any kind of in-home services to prevent placement or when the child has been placed in the legal custody of the State agency. 1 Most States impose a specified number of days for completing a case plan, as follows:

- From the date the child was placed in out-of-home care 3
- From the date the case was first opened for services 4
- From the date the child was adjudicated by the court as abused or neglected 5

Participants in the Process

The department or agency in each State that has the responsibility for providing child welfare services must formulate a case plan for each child placed in its care or custody. In 44 States, Guam, and Puerto Rico, the department must include the parents, guardians, or other caregivers in the case-planning process, unless compelling circumstances prevent their participation. 6 In 31 States, if the child is of an appropriate age, he or she must be included in case-planning efforts. 7 Approximately nine States require that a representative of the child’s Tribe be invited to participate when the child receiving services is an Indian child. 8

Laws in 14 States and the District of Columbia require the team developing the plan to include the child who has reached age 14 and, at the option of the child, up to two members chosen by the child who are not the child’s foster parent or caseworker. 9 One of these individuals may be designated to be the advisor of the child and, as needed, advocate for the child with respect to the application of the reasonable and prudent parent standard to the child. Any individual chosen by the child may be excluded by the department when the department has good cause to believe that the person would not act in the child’s best interests.

2 The word “approximately” is used to stress the fact that States frequently amend their laws. As of April 2018, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Hawaii, Kansas, Massachusetts, Missouri, Montana, New Hampshire, New Jersey, North Carolina, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, West Virginia, and Wisconsin require case plans for all families receiving services from the State agency.

3 Five days in Delaware, 10 days in Arizona; 30 days in Alabama, Arkansas, Georgia, Idaho, Minnesota, Mississippi, Montana, New Jersey, New York, North Carolina, North Dakota, Ohio, South Dakota, and Tennessee; 45 days in Illinois, Nevada, Texas, Utah, and Virginia; 55 days in Massachusetts; or 60 days in Alaska, California, Colorado, Florida, Idaho, Indiana, Iowa, Louisiana, Maryland, Nebraska, Oregon, Washington, West Virginia, and Wyoming.

4 Fourteen days in Missouri; 20 days in Kansas; 30 days in Alaska, Arkansas, and Mississippi; or 60 days in Arizona, California, Colorado, New Jersey, Oregon, Pennsylvania, and Vermont.

5 Ten days in South Carolina; 30 days in Arkansas, Idaho, Kansas, Kentucky, Missouri, Oklahoma, Rhode Island, and West Virginia; or 60 days in California, Indiana, and Washington.

6 States must seek the participation of the parents in Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Montana, Nebraska, Nevada, New Jersey, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, and West Virginia. Compelling circumstances include the parent cannot be found, refuses to participate, or has had his or her parental rights terminated.

7 In Alabama, Alaska, Arizona (age 12 or older), Arkansas, California, Colorado, Delaware, Florida, Georgia, Idaho, Iowa, Kansas, Minnesota, Mississippi, Nebraska, Nevada, New Jersey, New York (age 10 or older), North Carolina, Oklahoma, Oregon, Pennsylvania, Rhode Island (age 12 or older), South Carolina, Tennessee (age 12 or older), Texas, Utah, Vermont, Virginia, West Virginia, and Wyoming.

8 Alaska, Arizona, Idaho, Kansas, Minnesota, New Mexico, North Dakota, Oklahoma, and Oregon.

9 Arizona, California, Delaware, Georgia, Indiana, Iowa, Minnesota, New York, North Carolina, North Dakota, Oregon, Virginia, West Virginia, and Wisconsin.
Other persons who may be invited to participate include foster parents, guardians ad litem, court-appointed special advocates, and other members of the child’s family if they have significant ties to the child. In 16 States, participation is open to service providers, therapists, educators, and other professionals who have direct knowledge of the child and family’s needs. In 10 of these States, statutes or regulations specifically require that the State agency consider the use of some form of a family group decision-making approach when appropriate.

### Contents of a Case Plan

Federal law under title IV-E (in 42 U.S.C. 675(1)) requires that the case plan describe specifics of a child’s care while in placement, including, at a minimum, the following:

- **A description of the type of home or institution in which the child is to be placed**
- **A plan for ensuring that the child receives safe and proper care and that appropriate services are provided to the parents, child, and foster parents:**
  - To improve the conditions in the parents’ home
  - To facilitate the child’s return to his or her own safe home or the alternative permanent placement of the child
  - To address the child’s needs while in foster care
- **Efforts to maintain the child’s educational stability while in foster care, including continuing the child’s enrollment in his or her current school whenever possible**
- **To the extent available, the child’s health and education records**
- **Where appropriate, for a child age 14 years or older, a description of programs and services that will help the child transition from foster care to successful adulthood**
- **If the permanency goal for the child is adoption or placement in another permanent home, documentation of the steps being taken to find an adoptive family or other permanent living arrangement for the child**

State requirements for case plans typically include descriptions of the problems that led to the family’s involvement with the State agency and the services that will be provided to the parents to address those problems, as well as any services needed by the child and the child’s caregivers. The plans also include goals and objectives that the parent(s) must meet in order to ensure that they can provide a safe home for the child and timeframes for achieving those goals. In 20 States and the District of Columbia, the plan for a child age 14 and older must include the services and supports needed to assist the child in his or her transition from foster care to successful adulthood.

Approximately 39 States and the District of Columbia also require that the case plan state a permanency goal for the child. In addition, 38 States and Puerto Rico require that, for a child who is in out-of-home care, the plan include a schedule of visits between the child and his or her parent and between the child and any siblings that have been separated during placement.

---

11 The foster parents may participate in 18 States (Arizona, Arkansas, Colorado, Georgia, Kansas, Minnesota, Mississippi, Nevada, New Hampshire, New Jersey, North Carolina, North Dakota, Oregon, Rhode Island, Tennessee, Texas, Utah, and Wyoming). The child’s guardian ad litem may participate in 14 States (Alaska, Arizona, Arkansas, Florida, Kansas, Minnesota, North Dakota, Ohio, Oklahoma, Texas, Utah, Washington, West Virginia, and Wyoming). A court-appointed special advocate may participate in four States (Arizona, Arkansas, Kansas, and West Virginia). Members of the child’s extended family may be invited to participate in eight States (Alabama, Arizona, Colorado, Kansas, Mississippi, Oregon, Texas, and Vermont).

13 The approaches used include case-planning conferences (Kansas), family team meetings (Mississippi), family support team meetings (Missouri), permanency-planning child and family teams (North Dakota and Tennessee), family decision-making meetings (Oregon), interdisciplinary teams (Utah), case conferences (Washington), and multidisciplinary teams (West Virginia and Wyoming).

14 California, Colorado, Connecticut, Delaware, Idaho, Iowa, Louisiana, Maryland, Minnesota, Nebraska, New Jersey, New Mexico, North Dakota, Ohio, Oklahoma, Oregon, Tennessee, Virginia, West Virginia, and Wisconsin.

This publication is a product of the State Statutes Series prepared by Child Welfare Information Gateway. While every attempt has been made to be complete, additional information on these topics may be in other sections of a State’s code as well as agency regulations, case law, and informal practices and procedures.

When Case Plans Are Required
Citation: CPS Policy Manual §§ 2.9.1; 2.9.4
Case planning will occur for all families who have an open case (in home or out of home).
Case plans will be created and distributed to all appropriate parties within 60 days of assuming custody. For Family Services cases without custody, case plans will be created and distributed to all appropriate parties within 30 days of opening the case for services or no later than 30 days from the case transfer date.
The agency will develop a case plan for each child who is subject to a family services case, regardless of custody or placement. Case plan development will begin when the case has been transferred from an initial assessment worker to a family services worker, or when the assigned protective services (PS) specialist remains the same but the focus of the work changes from the initial assessment phase to the case planning and service provision phase.

Who May Participate in the Case Planning Process
Citation: CPS Policy Manual §§ 2.9.3; 2.9.4

The agency will develop a case plan using the Family Services Assessment (FSA) process for each parent, legal guardian, or Indian custodian who is subject to an open Office of Child Services (OCS) case, with or without custody, in home or out of home. The agency will work with each parent/guardian/custodian individually in developing his or her own case plan. Each case plan will be written using language that the parent/guardian/custodian can understand and include services they request to meet their identified needs.

In order to develop the case plan for a child, the PS specialist must meet with the child at least one time face to face, or more frequently as the child needs. The PS specialist also must collect information about the child from various other sources to learn enough about the child to form the child's case plan. The child's guardian ad litem and/or court-appointed special advocate and the child’s Tribe should be invited to participate in the development of the child's case plan, if appropriate.

The agency will gather information to help create the child’s case plan from each child, using developmentally appropriate strategies; from each parent; from alternate caregivers, when applicable; and from the child’s Tribe, when appropriate.

The PS specialist will develop the case plan document after meeting with the child and parents, collecting collateral information, reviewing documents, and completing the trauma screening of the child and parents.

Contents of a Case Plan
Citation: CPS Policy Manual §§ 2.9.1; 2.9.4

Case planning will encompass the issues of child safety, well-being, permanency, cultural continuity, and Indian Child Welfare Act compliance. Each case plan will have the following components:

- A primary and secondary permanency goal
- A description of efforts to prevent out-of-home placement for the child and efforts to involve parents, children, and the Tribe in the case-planning process
- A description of the safety threats and/or high-risk factors that required OCS to open a case with the family
- The parent/caregiver’s perception regarding the safety and risk factors and his or her understanding of why OCS is involved
- A description of the parent’s strengths related to the way he or she feels, thinks, or acts protectively toward his or her child
- A description of the behaviorally specific goals established between the parent and PS specialist
- The activities, tasks, and services that will help the parent achieve his or her case plan goals to enhance protective capacities
- How OCS will help the parent achieve the goals, who is responsible for what, and reasonable timelines by which to participate in the required services

The child’s portion of the case plan will include services to ensure safety, permanency, and well-being and to facilitate the child’s permanency goal. This may include mental health services, medical services, early periodic screening, developmental services, educational services, family contact with each parent and with siblings, and cultural continuity. The plan also will include strategies for ensuring the educational stability of the child while in foster care, including:

- Assurances that the child can remain enrolled in the same school, if possible
- If remaining in such school is not in the child’s best interests, assurances by the agency and the local school district to provide immediate and appropriate enrollment in a new school, with all of the educational records of the child provided to the school

The Department of Human Services shall be responsible for developing case plans in all dependency-neglect cases and in family-in-need-of-services cases when custody is transferred to the department. The case plan shall be developed and filed with the court no later than 30 days after the date the petition was filed or the child was first placed out of home, whichever is sooner.

If the department does not have sufficient information before the adjudication hearing to complete all parts of the case plan, the department shall complete those parts for which information is available. All parts of the case plan shall be completed and filed with the court 30 days after the adjudication hearing.

Who May Participate in the Case Planning Process

A written case plan must be prepared for each child under the supervision or custody of the Department of Services for Children, Youth, and Their Families.

In policy: All families active with the Division of Family Services (DFS) have a right to a written family service plan that clearly spells out goals and objectives in positive, measurable terms.

DFS is responsible for planning and meeting the child's needs while in out-of-home care. A plan for a child in care must be completed for every child within 5 days of placement.

Who May Participate in the Case Planning Process
Citation: Ann. Code Tit. 29, § 9003; Pol. Man. #3, C-1; #4, E-5

The department must prepare and maintain the written case plan.

In policy: Caseworkers must make attempts to develop written service plans with each parent for each child, including the nonresidential parent. Case plans must be individualized for each parent and should take into account the parents’ relationship with their child. Caseworkers must involve the parents in the development of the family service plan, and it must be written in language that the parents can understand.

Until the court terminates parental rights, parents must be included in the development and review of the plan for a child in care. They also must be given the opportunity to review and sign all plans related to the child. Youth must always be included in the development and review of the plan.

Contents of a Case Plan
Citation: Ann. Code Tit. 29, § 9003; DFS User Man. C-7; C-16; Pol. Man, #3, C-3; #4, E-1, E-3

The case plan shall include, but not be limited to, the following:

- A description of the child’s problems
- The care and treatment of the child
- Any other services to be provided to the child and the child’s family
- A goal to achieve any placement of the child outside of the child’s home in the least restrictive setting available and in close proximity to the child’s home, consistent with the best interests and special needs of the child

In policy: A written family service plan will be developed for each family opened for treatment services with DFS. When children are in foster care, the caseworker shall complete the family service plan and child plan.

The family service plan is used to outline the activities that the caseworker, client, and others undertake to resolve the problems that place the child at risk. At all points of service delivery, including assessment, selection of services, case planning, and closure, the safety of the child is the primary focus.

The child plan must be completed whenever DFS obtains custody of a child, regardless of the placement the child may be in, and includes the following:

- A 5-day plan (for a child in care 5–30 days) addresses circumstances surrounding the placement and the child’s immediate needs. The plan identifies the child’s medical conditions and current medications, if any, health provider, and current school information, including grade and educational classification. This must be completed within 5 working days of the child’s placement.
- The child plan (for a child in care 30 days or more) addresses the child’s needs while in placement and until permanency is achieved. The areas specifically addressed are medical, dental, educational/vocational, and social/emotional needs; behavior management; preparation for independent living; court requirements; visitation; and activities to locate a permanent home. This plan must be completed within 30 days every time a child moves to a new placement and be updated annually.
For youth age 14 and older, the child plan must be developed in consultation with the youth and, at the option of the youth, up to two members of the case-planning team who are chosen by the youth and who are not the youth’s foster parent or caseworker. The State may reject an individual selected by the youth to be a member of the case-planning team at any time if the State believes it has good cause to believe that the individual would not act in the youth’s best interests. One individual selected by a youth to be a member of the youth’s case-planning team may be designated to be the youth’s advisor and, as necessary, advocate, with respect to the application of the reasonable and prudent parent standard to the youth. The plan also must include a written description of the program and services that will help the youth prepare for the transition from foster care to successful adulthood.

When Case Plans Are Required
Citation: Ann. Stat. § 39.6011

The Department of Children and Family Services shall prepare a draft of the case plan for each child receiving services under this chapter. A parent of a child may not be threatened or coerced with the loss of custody or parental rights for failing to admit in the case plan of abusing, neglecting, or abandoning a child. Participating in the development of a case plan is not an admission to any allegation of abuse, abandonment, or neglect, and it is not a consent to a finding of dependency or termination of parental rights.

A case plan must be prepared, but need not be submitted to the court, for a child who will be in care no longer than 30 days unless that child is placed in out-of-home care a second time within a 12-month period.

In each case in which a child has been placed in out-of-home care, a case plan must be prepared within 60 days after the department removes the child from the home and shall be submitted to the court before the disposition hearing for the court to review and approve.

The case plan must be filed with the court and copies provided to all parties, including the child, if appropriate, not less than 3 business days before the disposition hearing.

Who May Participate in the Case Planning Process
Citation: Ann. Stat. § 39.6011

The case plan must be developed in a face-to-face conference with the parent of the child, any court-appointed guardian ad litem, and, if appropriate, the child, and the temporary custodian of the child.

The parent may receive assistance from any person or social service agency in preparing the case plan. The social service agency, the department, and the court, when applicable, shall inform the parent of the right to receive such assistance, including the right to assistance of counsel.

If a parent is unwilling or unable to participate in developing a case plan, the department shall document that unwillingness or inability to participate. The unwillingness or inability of the parent to participate in developing a case plan does not preclude the filing of a petition for dependency or for termination of parental rights.

The parent, if available, must be provided a copy of the case plan and be advised that he or she may, at any time before the filing of a petition for termination of parental rights, enter into a case plan and that he or she may request judicial review of any provision of the case plan with which he or she disagrees at any court hearing set for the child.
Contents of a Case Plan
Citation: Ann. Stat. § 39.6011

The case plan must be written simply and clearly in English and, if English is not the principal language of the child’s parent, to the extent possible in the parent’s principal language. Each case plan must contain the following:

- A description of the identified problem being addressed, including the parent’s behavior or acts resulting in risk to the child and the reason for the intervention by the department
- The permanency goal
- If concurrent planning is being used, a description of the permanency goal of reunification with the parent or legal custodian in addition to a description of an alternate permanency goal, as described in § 39.01, with the following conditions:
  - If a child has not been removed from a parent, but is found to be dependent, even if adjudication of dependency is withheld, the court may leave the child in the current placement with maintaining and strengthening the placement as a permanency option.
  - If a child has been removed from a parent and is placed with a parent from whom the child was not removed, the court may leave the child in the placement with the parent from whom the child was not removed with maintaining and strengthening the placement as a permanency option.
  - If a child has been removed from a parent and is subsequently reunified with that parent, the court may leave the child with that parent with maintaining and strengthening the placement as a permanency option.
- The date the compliance period expires
- A written notice to the parent that failure of the parent to substantially comply with the case plan may result in the termination of parental rights and that a material breach of the case plan may result in the filing of a petition for termination of parental rights sooner than the compliance period set forth in the case plan

The case plan must be signed by all parties, except that the signature of a child may be waived if the child is not of an age or capacity to participate in the case-planning process. Signing the case plan constitutes an acknowledgement that the case plan has been developed by the parties and that they are in agreement as to the terms and conditions contained in the case plan. The refusal of a parent to sign the case plan does not prevent the court from accepting the case plan if the case plan is otherwise acceptable to the court.

The case plan must describe the following:

- The role of the foster parents or legal custodians when developing the services that are to be provided to the child, foster parents, or legal custodians
- The responsibility of the case manager to forward a relative’s request to receive notification of all proceedings and hearings
- The minimum number of face-to-face meetings to be held each month between the parents and the department’s family services counselors to review the progress of the plan, to eliminate barriers to progress, and to resolve conflicts or disagreements
- The parent’s responsibility for financial support of the child, including, but not limited to, health insurance and child support

When the permanency goal for a child is adoption, the case plan must include documentation of the steps the agency is taking to find an adoptive family or other permanent living arrangement for the child.

When Case Plans Are Required
Citation: Code of Miss. Rules, 18-006-104, Part VII, Sec. B

The case plan for each child is developed within 30 calendar days from the date of removal from the home. Within 30 calendar days of a child’s entrance into foster care, the Division of Family and Children's Services (DFCS) caseworker shall convene a family team to develop service plans and visiting plans for both the child and the parents with the participation of all team meeting participants. The family service plan is developed and submitted to the supervisor within 30 calendar days of the custody date, unless the court determines otherwise.

Who May Participate in the Case Planning Process
Citation: Code of Miss. Rules, 18-006-104, Part VII, Sec. B

Family engagement is an ongoing process of involving the family from the initial investigation throughout the life of the case. The caseworker must engage the family, extended family members, and formal and informal support networks through family team meetings to help them make a permanent plan for the child. The family should be considered as the experts of their situation and should identify the problems and solutions to these problems with the assistance of the caseworker and their formal and informal support systems. The caseworker will work with the family to develop an adult and child individualized service plan, listing tasks and goals needing achievement to facilitate the permanent plan.

The case plan for each child is developed jointly with the parent or guardian of the child.

The family team meeting includes the caseworker, the caseworker’s direct supervisor, the foster caregiver (if applicable), the child’s parent or guardian, other family members (if appropriate), and the child, unless there is justification for excluding the child from the planning process.

Contents of a Case Plan

When the case plan goal is adoption, at a minimum the documentation shall include child-specific recruitment efforts such as the use of Tribal, State, regional, and national adoption exchanges, including electronic exchange systems, to facilitate orderly and timely placements.
The family service plan (FSP) should be individualized, strengths based, family focused, and culturally responsive. In a case in which the child in custody has a permanent plan of reunification, an FSP between the caseworker and the parents, caregivers, and child is required. The FSP should be used as a means of facilitating the child’s return home.

The parents will have a 6-month period in which to complete the tasks in the FSP. At the end of 6 months, the court may direct DFCS to (1) continue to work with the parents for return of the child to their home, (2) begin procedures to terminate parental rights, or (3) pursue another permanency plan.

Each FSP and revision of the plans shall include the following:

- Service goals, desired outcomes, and timeframes for achieving them

- Efforts to maintain and strengthen relationships
- Educational needs and goals
- The need for culturally responsive services and the support of the family's informal social network

The goals and tasks set forth within the FSP shall be a direct reflection of the decisions made within the family team meeting.

Following the investigation conducted pursuant to § 43-1311 and immediately following the initial placement of the child, a safe and appropriate plan shall be established for the child.

In regulation: A written case plan will be developed following the assessment of the family or child's needs. Case plan evaluation and revision will then occur at least every 6 months. A written court report incorporating the elements of the case plan will be submitted to the court at least 3 days before, or as dictated by local court protocol, the initial dispositional hearing or any subsequent review hearing.

When a child is placed in the custody of the Nebraska Department of Health and Human Services, Federal regulations require that a case plan be developed within 60 days of the date of placement. When there is insufficient time to develop a case plan within this time frame for the child welfare cases, the safety plan will serve as the case plan.

The person or court in charge of the child shall cause to be established a safe and appropriate plan for the child.

Effective July 19, 2018: The department shall provide opportunities for the child, in an age or developmentally appropriate manner, to be consulted in the development of his or her plan, as provided in the Nebraska Strengthening Families Act.

• The department shall document the intensive, ongoing, and, as of the date of the hearing, unsuccessful efforts made by the department to return the child home or secure a placement for the child with a fit and willing relative, a legal guardian, or an adoptive parent.

The Department of Health and Human Services shall develop a written out-of-home family services agreement within 30 days of admission of a child in a family foster home.

In policy: An out-of-home family services agreement is implemented for all families when the child is placed in the custody of a local child welfare agency, whether or not the child is removed from the home. For children in the legal custody of the agency, the agreement shall be completed within 30 days of removal of the child from the home.

The out-of-home family services agreement shall be developed in cooperation with the child, parents, guardian or legal custodian, and foster parents when possible.

In policy: For children in the legal custody of the agency, the agreement shall be developed in consultation with any youth who is age 14 or older. The youth may select up to two individuals who are not his or her foster parent or social worker. If the agency has good cause to believe that an individual selected by the youth would not act in the best interests of the youth, it may reject that individual. One of the individuals selected by the youth may be designated to serve as the youth’s advisor and as necessary advocate for application of the reasonable and prudent parent standard to the youth.

The social worker is responsible for immediately engaging the family, both maternal and paternal, in the planning process, which is focused on correcting the conditions that caused the department to be involved with the family. Whether or not the child enters custody or placement responsibility, the planning process shall involve the family and children (appropriate to their age and ability) and placement providers.

The out-of-home family services agreement shall be based upon an assessment of the needs of the child, parents, or guardian. The agreement shall include goals stated in specific, realistic, and measurable terms and plans that are action oriented, including responsibilities of staff, parents or guardian, other family members, legal custodian, foster parents, and the child. The agreement shall address the following services to be provided or arranged:

- The plan for visits designed to maintain links with the family
- The expectations of the family, agency, placement provider, and community members
- Target dates
- Expected outcomes

**In policy:** The out-of-home family services agreement serves as the framework upon which the agency's work with the family and child is based, and the information contained in the agreement serves the following purposes:

- Ensures attention to critical needs in the family
- Guides overall planning and service delivery for families and children
- Provides structure for the involvement of all parents and relatives
- Documents objectives that parents must meet for reunification and documents behaviorally specific activities necessary to meet objectives
- Assigns responsibility for activities
- Documents the level of progress of the family toward reunification
- Meets the requirements of Federal and State law
- Reflects relevant components of the plan of safe care for a substance-affected infant

The purpose of the out-of-home family services agreement planning process is:

- To clarify with the family the reasons for local child welfare agency involvement
- To focus on the safety and permanency needs of the child
- To identify resources within the entire family that will help the child achieve a safe, permanent home
- To involve the family in identifying areas that need improvement
- To clarify expectations for behavioral change with all persons involved
- To acknowledge the family’s strengths and commitment to their child

The agreement must address the services to be provided or arranged; the visiting plan designed to maintain links with the family; expectations of the family, agency, placement provider, and community members; target dates; and expected outcomes. The out-of-home family services agreement is used to define the primary permanency plan, identify the family’s strengths and needs, set objectives and case activities to assist the family in resolving those issues that place the child at risk, specify consequences if the plan does or does not succeed, and to establish the alternative permanency plan if the primary plan does not succeed.

The Department of Human Services shall consider the use of a family decision-making meeting in each case in which a child is placed in substitute care for more than 30 days. When the department determines that the use of a family decision-making meeting is appropriate, the meeting shall be held, whenever possible, before the child has been in substitute care for 60 days. If the department elects not to conduct a family decision-making meeting, the reasons for that decision shall be clearly documented in the written service plan of the child developed by the department.

**In regulation:** The caseworker must develop the case plan within 60 days of a child’s removal from home or within 60 days of the completion of the Child Protective Services (CPS) assessment, in cases where the child remains in the home of a parent or legal guardian.

If the department determines that the use of a family decision-making meeting is appropriate, the department shall conduct and document reasonable inquiries to promptly locate and notify the parents, grandparents, and any other family member who has had significant, direct contact with the child in the year prior to the substitute care placement.

All family members notified by the department may attend the meeting unless the department determines that the safety of any attendee will be compromised by the attendance of any family member.

**In regulation:** The persons involved with the department in the development of the case plan include the parents or guardians, unless their participation threatens or places other participants at risk. In addition, the planning team shall include the child who has reached age 14 and, at the option of the child, up to two members chosen by the child who are not the child’s foster parent or caseworker or an individual the department has good cause to believe would not act in the best interests of the child. One of these individuals may be designated to be the advisor of the child and, as needed, advocate for the child with respect to the application of the reasonable and prudent parent standard to the child.
Additional persons involved with the department in the development of the case plan may include the child, regardless of age; adoptive parents; an Indian custodian, when applicable; other relatives, persons with significant attachments to the child, the substitute caregiver, and other professionals, when appropriate.

The first section of the plan shall set forth the changes that must occur in the home and family situation before the child can be returned. These changes must be reasonably related to the reasons justifying removal of the child from the custody of the parents or guardian. This section of the plan must contain a notice to the parents or guardian that failure to make the indicated changes within 6 months may result in termination of parental rights.

The second section of the plan shall set forth the following:

- Specific actions to be taken by the parents or guardian of the child
- Social or other services to be provided or made available to the parent or guardian of the child

This section of the plan must include timeframes for commencement or completion of specific actions or services. - The responsibility of the parents or guardian for financial support of the child during the placement

The fourth section of the plan must address matters relating to the placement of the child, including, but not limited to, the following:

- The nature and location of the placement of the child, unless there are compelling reasons for concluding that disclosure of the location of the placement to the parents, guardian, or other person would be contrary to the best interests of the child
- Visits or other contact with siblings, other relatives, and other persons important to the child
- Social and other supportive services to be provided to the child and the foster parents, including counseling or other services to assist the child in dealing with the effects of separation from the child’s home and family
- The minimum number and frequency of contacts that a caseworker with the department will have with the child, which must be based on the particular needs and circumstances of the individual child but which must not be less than once a month for a child placed in this State

The placement must be as close to the child’s home as is reasonably possible, unless there are compelling reasons for concluding that placement at a greater distance is necessary to promote the child’s well-being. In the absence of good cause to the contrary, preference must be given to placement with a relative or other person who is known to the child and who has a constructive and caring relationship with the child.

Case Planning for Families Involved With Child Welfare Agencies

- If the plan is for the child to return to the child's family:
  - Specifically what the parents must do to enable the child to be returned home
  - Specifically how those requirements may be accomplished
  - How those requirements will be measured
- The specific services needed to reduce the problems that necessitated placing the child in the division's custody
- The name of the person who will provide and be responsible for case management
- A schedule of parent time between the natural parent and the child, unless such parent time is detrimental to the child
- The health and mental health care to be provided to address any known or diagnosed mental health needs of the child
- If residential treatment rather than a foster home is the proposed placement, a requirement for a specialized assessment of the child’s health needs, including an assessment of mental illness and behavior and conduct disorders
- Social summaries that include case history information pertinent to case planning
- A schedule for sibling visits

The case plan shall address specific problems that keep a child in placement and keep a child from achieving permanence in his or her life. It shall be designed to minimize disruption to the normal activities of the child’s family, including employment and school.

The division shall consider visitation with their grandparents for children in State custody if the division determines visiting to be in the best interests of the children and:

- There are no safety concerns regarding the behavior or criminal background of the grandparents.
- Allowing visits would not compete with or undermine the reunification plan.
- There is a substantial relationship between the grandparents and children.
- The visits will not unduly burden the foster parents.

Case planning is the process of working with the family to develop a set of agreed-upon goals and strategies that focus on the underlying issues that led to the child safety intervention, as well as the issues that are contributing to current unresolved danger and/or future risk of harm.

The case plan must plan for the safety of the child or youth. The social worker shall work with the family to identify the family’s strengths, protective capacities, and any natural supports (including relatives, friends, and community supports that may be of assistance), and services needed. When possible, the priorities in the case plan should reflect the family’s view of the most pressing issue facing them.

The education section of the child’s case plan must include a plan for ensuring the educational stability of the child while in foster care, including the following:

- Assurances that each placement of the child in foster care takes into account the appropriateness of the current educational setting and the proximity to the school in which the child is enrolled at the time of placement
- An assurance that the State agency has coordinated with appropriate local educational agencies to ensure that the child remains in the school in which the child is enrolled at the time of each placement or, if remaining in that school is not in the best interests of the child, that the State agency and the local educational agencies will provide immediate and appropriate enrollment in a new school, with all of the educational records of the child provided to the school
The case plan must include, at minimum, the following information:

- A determination of the safety of the child
- The appropriateness of the child’s placement
- How the plan ensures the child’s safe and proper care and addresses the child’s needs
- The services provided to the parents, child, and substitute care providers to make it possible for the child to safely return home or be placed in another permanent setting
- The conditions that brought the child and family to the department’s attention
- The likely date by which permanency for the child may be achieved through any of the following options:
  - Safely reunifying the child or youth with his or her family
  - Transferring custody and/or guardianship of the child
  - Adoption
  - Another permanent placement and/or preparing the youth for legal independence
